Over the centuries, many different icons have represented America. Perhaps the two that best exemplify the American way of life are the flag and the Statue of Liberty. As Arlington Cemetery and Memorial Day witness the sacrifice of those who gave their lives on behalf of We the People, the Statue of Liberty and July 4 represent what that sacrifice was for: the right to be free and to live dreams. The site of where millions first entered this country is both a museum to those who arrived there and a symbol for all Americans of our better nature no matter when or where they arrived. Share its experience and bring its message back to the classroom.

9:00  Meet tour guides at Battery Park: We will be accompanied by two guides throughout the program

9:25  Board ferry for Statue of Liberty

Located on a 12 acre island, the Statue of Liberty Enlightening the World was a gift of friendship from the people of France to the people of the United States and is a universal symbol of freedom and democracy. The Statue of Liberty was dedicated on October 28, 1886, designated as a National Monument in 1924 and restored for her centennial on July 4, 1986.

A Statue of Liberty Teacher Guide is available free to educators teaching elementary and middle grades (3-6). For a guide or more information call us at: 212 363-3200. (Limit 1 guide per person)

10:45  Board ferry to Ellis Island

Opened on January 1, 1892, Ellis Island became the nation's premier federal immigration station. In operation until 1954, the station processed over 12 million immigrant steamship passengers. The main building was restored after 30 years of abandonment and opened as a museum on September 10, 1990. Millions of America's population can now trace their ancestry through Ellis Island.
